

# AZRAS System Disclaimer

---

## English Version

By using this software, the user acknowledges and accepts the following conditions.

### 1. Free Use

This software is provided free of charge and may be used for commercial or non-commercial purposes.

### 2. AS IS

The software, accompanying documents, sample PDF files, sample JSON files, and all other distributed materials are provided on an “AS IS” basis. ACE Comprehensive Consulting Co., Ltd. makes no express or implied warranty as to accuracy, completeness, fitness for a particular purpose, continuous operation, or freedom from errors.

### 3. Calculations and Analysis

All structural, material, quantity, construction cost, schedule, environmental impact, energy, life-cycle cost, business feasibility, asset value, disaster recovery, and other calculations or analytical outputs are reference information based on inputs, assumptions, formulas, and data. They do not guarantee actual design performance, structural safety, legal or code compliance, construction outcomes, costs, schedules, revenues, investment results, disaster safety, or recovery outcomes.

### 4. Sample Data

The PDF and JSON files supplied for the three construction methods are samples for operation and comparison. General initial values and assumptions contained in the JSON files are not official standards, guaranteed values, or values applicable to any specific building, location, construction method, price, or performance level.

### 5. User Verification

Users must verify input data, automatically populated or recognized values, adopted values, calculation conditions, drawings, and outputs. Design, construction, legal compliance, contracts, insurance, financing, investment, and other important decisions should be independently checked by qualified professionals or relevant authorities where appropriate.

## **6. Use of AI**

AI services including ChatGPT have been used in the development of this software and may also be used to assist with operation and troubleshooting. The accuracy or completeness of AI responses is not guaranteed. Important decisions must not be based solely on AI responses.

## **7. No Liability**

ACE Comprehensive Consulting Co., Ltd. assumes no liability whatsoever for any damage, loss, cost, claim, dispute, or other disadvantage arising from or related to the use of, inability to use, or reliance upon this software, accompanying materials, sample data, AI-assisted guidance, or any calculation or analytical output, regardless of the cause or form of such loss.

## **8. User Responsibility**

The decision whether to use the software, which inputs, assumptions, or outputs to adopt, and how any result is used is entirely the responsibility and judgment of the user.
